LAUSD School Games is a partnership between Special Olympics Southern California and the Los Angeles Unified School District. Adapted Physical Education Teachers offer sports training and athletic competition programs for students with intellectual disabilities and other special needs. This year’s event will be the culmination of a six week athletics (track & field) training program that provides opportunities to learn through sports competition, develop all aspects of total fitness needed to compete in any sport, and promotes the development of life-long fitness skills that will help student athletes lead a more productive and independent life.
